This information is not routinely collected about students and is only likely to be processed by the school in specific circumstances relating to particular students, for example, if a child protection issue arises or if a student is involved in a criminal matter. Where appropriate, such information may be shared with external agencies such as the child protection team at the Local Authority, the Local Authority Designated Officer and/or the Police. Such information will only be processed to the extent that it is lawful to do

so and appropriate measures will be taken to keep the data secure.

We collect information about students when they join the school and update it during their time on the roll as and when new information is acquired.

As the school has a cashless catering system, we also process biometric data about students. Please see our Data Protection Policy for more details about how we process biometric data.

Collecting student information

Whilst the majority of student information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with the General Data Protection Regulation, we will inform you whether you are required to provide certain pupil information to us or if you have a choice in this. Where appropriate, we will ask parents/students for consent to process personal data where there is no other lawful basis for processing it, for example where we wish to use photos or images of pupils on our website, newsletters, publications or on social media to promote school activities. We may also want to ask your permission to use your information for marketing purposes. Parents/students may withdraw consent at any time.

When students are deemed to be old enough to make their own decisions in relation to their personal data, we will also ask the student for their consent in these circumstances. This will usually be around the age of 13. Although parental consent is unlikely to be needed, we wish to take a collaborative approach so we will keep parents informed when we are approaching student for consent up to the age of 18. Students with the maturity to make their own decisions about their personal data may withdraw consent if consent has previously been given.

In addition, the School also uses CCTV cameras around the school site for security purposes and for the protection of staff, students and visitors. CCTV footage may be referred to during the course of disciplinary procedures (for staff or students), or to investigate other issues. CCTV footage involving students will only be processed to the extent that it is lawful to do so. Please see our data protection policy for more details.

Storing student data

We hold student data until the end of the academic year in which the student turns 25 years of age, as specified within the IRMS Schools Toolkit, <https://irms.site-ym.com/page/SchoolsToolkit>

A significant amount of personal data is stored electronically, for example, on our MIS database. Some information may also be stored in hard copy format.

Data stored electronically may be saved on a cloud based system which may be hosted in a different country.

Personal data may be transferred to other countries if, for example, we are arranging a school trip to a different country. Appropriate steps will be taken to keep the data secure.

Aged 14+ qualifications

For students enrolling for post 14 qualifications, the Learning Records Service will give us a pupil's unique learner number (ULN) and may also give us details about the student's [learning or qualifications](#).

Why we share student information

We do not share information about our students with anyone without consent unless the law allows us to do so.

We share student's data with the Department for Education (DfE) on a statutory basis. This data sharing underpins school funding and educational attainment policy and monitoring.

We are required to share information about our students with our local authority (LA) and the Department for Education (DfE) under section 3 of The Education (Information About Individual Pupils) (England) Regulations 2013.

Data collection requirements

To find out more about the data collection requirements placed on us by the Department for Education (for example; via the school census) go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

Youth support services

(What is different about students aged 13+?)

Once our students reach the age of 13, we also pass student information to our local authority and/or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

A parent/guardian can request that **only** their child's name, address and date of birth is passed to their local authority or provider of youth support services by informing us. This right is transferred to the child/student once he/she reaches the age 16.

Our students aged 16+

We will also share certain information about student aged 16+ with our local authority and/or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- post-16 education and training providers;
- youth support services;
- careers advisers.

For more information about services for young people, please visit our [local authority website](#).

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about students in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding

bodies.

We are required by law, to provide information about our students to the DfE as part of statutory data collections such as the school census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the student information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

The department may share information about our students from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The DfE has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data;
- the purpose for which it is required;
- the level and sensitivity of data requested; and
- the arrangements in place to store and handle the data.

To be granted access to student information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

For more information about the department's data sharing process, please visit: <https://www.gov.uk/data-protection-how-we-collect-and-share-research-data>

Requesting access to your personal data

Under data protection legislation, students, and in some circumstances, parents/carers, have the right to request access to information about them that we hold ("Subject Access Request"). From the age of 13, we generally regard students as having the capacity to exercise their own rights in relation to their personal data. This means that where we

consider a student to have sufficient maturity to understand their own rights, we will require a Subject Access Request to be made by the student and not their parent(s) on their behalf. This does not affect any separate statutory right parents might have to access information about their child.

Subject to the section below, the legal timescales for the School to respond to a Subject Access Request is one calendar month. As the School has limited staff resources outside of term time, we encourage parents/students to submit Subject Access Requests during term time and to avoid sending a request during periods when the School is closed or is about to close for the holidays where possible. This will assist us in responding to your request as promptly as possible. For further information about how we handle Subject Access Requests, please see our Data Protection Policy.

Parents of students who attend a maintained school have a separate statutory right to access their child's educational record. Upon receipt of a written request for a student's educational record, the School will respond to it within 15 school days. This is an independent legal right of parents, which falls outside of the GDPR, therefore a student's consent is not required even if a student is able to make their own decisions in relation to their personal data, unless a court order is in place which states otherwise.

The term "parent" is widely defined in education law to include the natural or adoptive parents, (regardless of whether parents are or were married, whether a father is named on a birth certificate or has parental responsibility for the student, with whom the student lives or whether the student has contact with that parent). It also includes non-parents who have parental responsibility for the student, or with whom the student lives. It is therefore possible for a student to have several "parents" for the purposes of education law.

You also have the right to:

- object to processing of personal data that is likely to cause, or is causing, damage or distress;
- prevent processing for the purpose of direct marketing;
- object to decisions being taken by automated means;
- in certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- claim compensation for damages caused by a breach of the our data protection responsibilities.

If you have a concern about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the Information Commissioner's Office at <https://ico.org.uk/concerns/>
