What aspects of the school have you been most impressed with?

Given loads of revision resources.

All of it.

All of the support from Mr Naicker, Mr Launay, Mr Neocleous and Miss Evans.

Issues dealt with quickly.

Communication.

Teachers caring about the progress being made by the student.

The school keeps us updated with all the events in the school. There is a good link between the parents and the school itself.

Inclusive practice and alternative pathways at KS4.

The standard of the teachers and the thorough breakdown they give us as parents on how my child is doing and how she can improve.

Intervention lessons.

The teachers were well prepared and an action plan was in place for my son's areas that needed extra support.

Interventions available to assist with GCSE revision.

The support with period 7 classes.

Some of the teachers hand out lots of resources which is very helpful for my child. Period 7 is very good for extra education, thanks to the teachers for that.

If you have disagreed with any of the statements in the questionnaire could you please elaborate in order to help us further improve our practice.

Not aware of the login for GCSEpod.

The couple times I have raised concerns about issues I felt the school were defensive.

I don't log onto SMHW but monitor my son as he's looking on it.

Update the school website, perhaps on a daily basis. Update the calendar and timetables.

Sometimes my daughter has up to 11 pieces of homework which she's finding very stressful, on top of revision for GCSE as well.

I feel my daughter receives too much homework as well as trying to do revision. There should be less homework.

Changes to website have made it harder to navigate. My daughter has not logged into GCSEpod as she uses other sites.

Seeing my daughter getting homeworks everyday and on top of revision just before her GCSEs is hard. Should the time just be for revision because GCSEs are close?
